CAWA

Central African Republic (C.A.R.) 2015

Central African Wildlife Adventures - area 40 and 41 in the Eastern CAR. The total area of the concessions is approximately 2 million acres. Area 40 is our main area and has been developed for three years; area 41 was added to the company this year.

For those who desire a true remote region, area 40 and 41 provide such a hunting location. Positioned approximately 250 kilometers from the closest human settlement, our main camp is noted as one of the most remote main camps in Africa today. Additionally, this region is unique in that both Forest and Savannah species can be hunted from the same area. One can hunt Eland in the morning and Bongo in the evening, with salt licks providing an opportunity to see both.

Kocho, the main camp, offers the best in comfort and style in CAR to date. Located in tree canopies along the river, the camp is made out of bungalows in semi brick construction. Each bungalow is separately situated along River Kocho and includes an attached porch, running water, showers, and flush toilets. **Fly camps** and **secondary camps** are set up with safari style canvas tents. These camps, depending on the situation (quick set up camp or a permanent one), also include running water, showers, and flush toilets in each tent. All camps are equipped with 220 volts.

Buffalo Safari (12 days) – quoted in Euro	
1 x 1	18,500
2 x 1	14,500 per hunter
Observer in shared accommodation	5,950
