SAFARI TRACKERS

ADVENTURE  
UNPARALLELED

When you embark on a journey to Africa for a Hunting or Photographic Safari, you are going because you want to embrace a new adventure by experiencing things you are unable to view anywhere else. We strive to ensure a successful Safari full of memorable experiences created by our knowledgeable team of professionals. It is not only the adventure that creates a successful Safari, it is the people you are surrounded with, their culture, the smells of the African wilderness, being awakened at dusk by the chirping of the Birds, the roar of the Lion at night, the tastes of different foods or being so close to a Leopard that you can almost feel its breath on you. These are just a few of the memories that we would create for you, your family and friends. It is not just a Hunt or Photographic Safari being offered but an unforgettable adventure and experience.

To all of the clients who booked and hunted with us this year, I'd like to thank you for allowing myself and our entire team the opportunity to create a memorable experience. I hope that your Safari was above and beyond your expectations as I personally strive to offer nothing less than the very best experience for each client. We have had another outstanding year with some of the most beautiful trophies taken. Our brochure speaks for itself with many satisfied clients. We have taken them on a journey, and the images are just a mere reflection of the life long memories that turned their dreams into reality. I would like to personally thank all of our Professional Hunters and Outfitters that I work with for doing an outstanding job, as always. To my office staff, a tremendous amount of gratitude for a great year in assisting each and every client. Of course many thanks to our clients, as we owe our success to them!

When you book a Safari with Adam Clements Safari Trackers, you can be assured that you are booking a top quality Safari. I only deal with the very best Outfitters and areas, personally spending my own time and money visiting each to ensure that my clients will be taken care of. For those of you who have not booked a Hunting, or Photographic Safari with us, I hope that you will give us a call and allow us to turn your dreams into a reality, creating treasured lifelong memories for you, your family, and friends.

# PHOTOGRAPHIC SAFARIS

A safari is like a painting. The canvas is blank, and your guide holds the palette of different colored paints, pastels, paintbrushes and pencils, and has the knowledge and skill to create a masterpiece of fine art. The colors represent the options of where to go, places to stay, varieties of activities, and different ways of getting there. The size of the canvas depends on the time you have available.

The journey starts with the design process — opening a discussion to identify your needs, your general interests, and any specifics in which you may be interested. Working together, we develop an itinerary that includes the right levels of adventure and comfort, and the best locations for you to get the most out of your safari.

For some, that adventure has become a way of life. They are the guides, the conservationists; and their passion for the land they find so much peace from drives them to understand its intricacies. Sharing it with you helps them understand it better, and is an important force in the conservation of what was once described as uninhabited wilderness.

Whether you seek a luxurious wildlife adventure, a lightweight walking safari, a family holiday, or if you are a photographer with a mission, Ethan Kinsey will help you to organize your journey. He organizes safaris that don't fit in the boxes sold by tour operators working from an office. His office is the bush, his passion, and he offers a unique opportunity to step out of the bounds and rules of modern conventional safaris, while maintaining the highest standards and integrity of the people and places you will visit.

Adam Clements Safari Trackers is “The Beginning of a True African Experience.” We work with the best guides and our philosophy is to custom design every detail of your safari around your needs, interest, and budget. This will give you the opportunity to mold a photographic safari package to your interests, instead of molding yourself to a predetermined tour and itinerary. Our experience will ensure that every aspect of your safari, from handling your bookings to planning the smallest detail, will be covered. Allow us to plan a personal itinerary to include some of Africa's most precious, undisturbed places. It is our goal to develop an exciting and breathtaking safari as you plan your trip of a lifetime.

We offer photographic safaris in Tanzania, Zambia, South Africa, Kenya and Zimbabwe. You can choose from several different options from permanent routes to mobile tented safaris.

**Call our office for the details and we will be happy to send you prices on options that will fit your expectations.**
