ADAM CLEMENTS
SAFARI TRACKERS

Adam, Fairyn & Sarah Clements

As one of man's oldest traditions, hunting is not only a passion, but a way of life. For those of us who choose the hunting life, there is a piece of our soul that beckons us to take to the woods, to the bush, to the water, or to the mountains and reconnect with the ways of old. We respect the wildlife that we pursue.

At Adam Clements Safari Trackers, we understand this need, because we feel the call as well. We strive to give our clients an adventure and memories to last a lifetime, and hunting stories that can be passed around the campfire for future generations. Whether you want that big black-mane lion, 200+ inch Mule Deer, or a trophy big-horn sheep, we have a hunt for everyone. With a devotion to customer service and knowledge in the industry, we will help you plan from beginning to end.

I was born and raised in Tanzania, East Africa to missionary parents who dedicated their lives their for 42 years. I grew up on the shores of Lake Victoria right next to the famous Serengeti National Park as my

back yard. I grew up hunting as early as I can remember and that passion for wildlife has never faded to this day. I did a lot of animal control hunting for the government for Hippo, Lion, and Leopard at an early age along with a lot of Buffalo hunting. At the age of 19 I went to the University of Tennessee and got my BS degree. During my University

Sarah Clements, Accounting

years I worked for the police department and ended up working as undercover narcotics for the government after that. After several shootings and being shot at, being stabbed and receiving the purple heart from the government, I decided that I would pursue my real passion of hunting. So, in 1994 I started Adam Clements Safari Trackers and gradually grew my company one client at a time into the successful company it is today.

I have to date taken with clients 122 Leopards and 86 Lions and known by many of my clients as the cat man! I can only say thanks to my loyal clients and to those of you who have hunted with me in the past and present, for without your trust in me, I would not be where I am today!

I am very blessed to have met and married my beautiful and smart wife Sarah who is a Pharmacist and who also handles my accounting. We have a beautiful daughter Fairyn who is just as smart as her mother and loves the outdoors and being in Africa. We as a family strive to give you our very best when you book your adventure with us and I can assure you that my experience and knowledge of this industry will save you time and money.

Reagan Seals, Office Manager

IF YOU ONLY VISIT TWO CONTINENTS IN YOUR LIFETIME, VISIT AFRICA TWICE.

– R. ELLIOT

When you embark on a journey to Africa for a Hunting or Photographic Safari, you are going because you want to embrace a new adventure by experiencing things you are unable to view anywhere else. We strive to ensure a successful Safari full of memorable experiences created by our knowledgeable team of professionals. It is not only the adventure that creates a successful Safari, it is the people you are surrounded with, their culture, the smells of the African wilderness, being awakened at dusk by the chirping of the Birds, the roar of the Lion at night, the tastes of different foods or being so close to a Leopard that you can almost feel its breath on you. These are just a few of the memories that we would create for you, your family and

friends. It is not just a Hunt or Photographic Safari being offered but an unforgettable adventure and experience.

To all of the clients who booked and hunted with us this year, I'd like to thank you for allowing myself and our entire team the opportunity to create a memorable experience. I hope that your Safari was above and beyond your expectations as I personally strive to offer nothing less than the very best experience for each client. We have had another outstanding year with some of the most beautiful trophies taken. Our brochure speaks for itself with many satisfied clients. We have taken them on a journey, and the images are just a mere reflection of the life long memories that turned their dreams into reality. I would like to personally thank all of our Professional Hunters and Outfitters that I work with for doing an outstanding job, as always. To my office staff, a tremendous amount of gratitude for a great year in assisting each and every client. Of course many thanks to our clients, as we owe our success to them!

When you book a Safari with Adam Clements Safari Trackers, you can be assured that you are booking a top quality Safari. I only deal with the very best Outfitters and areas, personally spending my own time and money visiting each to ensure that my clients will be taken care of. For those of you who have not booked a Hunting, or Photographic Safari with us, I hope that you will give us a call and allow us to turn your dreams into a reality, creating treasured lifelong memories for you, your family, and friends.

TANZANIA

Adam Clements Safaris Limited is our actual operating company within Tanzania. The government concessions that we offer in Tanzania are all managed and operated with our own camps, staff, vehicles, and supplies. We have our own big office located in Arusha to handle all operations and trophy exports.

Tanzania is a land that has lured famous explorers and adventurers for centuries. Tanzania to this day still lures adventurers and sportsmen from around the world. It is one of the last remaining countries in Africa where you can still experience the true East African adventure. Whether it be hunting for the big cats, big buffalo, and special plains game, sightseeing and photography, or climbing Mount Kilimanjaro, Tanzania has everything. If you truly want an adventure and experience that is unmatched, then Tanzania is the country of choice. Apart from hunting or sightseeing, the most important aspect of your safari should be the unforgettable memories of the unique atmosphere of the African bush along with the people, animals, skills, sights, smells and sounds that you encounter while in Tanzania.

Books have been written and movies filmed, attempting to describe the impassioned grip Africa can have on the soul. From the days when hundreds of porters would carry supplies for months-on-end expeditions, to today, when the most remote places are accessible by light aircraft, there is an adventure and romance associated with a safari in the African wilderness.

For some, such as Adam Clements Safari Trackers, that adventure has become a way of life. Whether you seek a luxurious wildlife adventure, a remote and rugged area, a family holiday, or if you are a photographer with a mission, we will help you organize your journey.

We have excellent areas and camps, and whether you are in Northern Tanzania on the Masai plains, in Western Tanzania, or in the Selous Game Reserve, you will have an experience that will bring your dreams to reality and memories to last a lifetime. The areas we have in Tanzania are all PRIME areas where you can be assured of quality trophies, first class camps, equipment and our personal attention.

ADAM CLEMENTS SAFARIS ANTI-POACHING AND MANAGEMENT

Our Anti-Poaching Units spend 300 days a year in our concessions patrolling. We patrol by vehicle, Argo or by foot patrol.

For each concession we have 1 Unit that consists of 4 Government game Rangers and 4 company trained staff.

Our presence and effectiveness since we started in these areas has been tremendous. When we first took over these areas, there was very little to no Elephant sign or sightings. Within only a few months to half a year of our strict conservation and anti-poaching the Elephants started to return, to where now we have daily fresh sign and sightings.

The Hippo had been poached out of the Malagarasi River when we started, and now the Hippo have started to return and we are starting to see new life and more abundance of game in the River where there had no been any protection for many years.

These are just a few good success stories, but over all the game is abundant and with our protection we plan to increase the numbers even more.

Conservation does not just happen with Anti-poaching and community education and

interaction is very important. We work very closely with our fellow Game department and government with our outlining villages that border our concessions to the West. Trying to educate them on the value of the wildlife and what the wildlife and heritage means to them. Also, that part of the revenue that we get from the wildlife does go back to them with what we provide to their communities with different projects.

Projects such as schools, food, equipment for hospitals, education and so forth.

Our Mission is to:

- Provide proactive assistance to the Tanzanian Government and the people of Tanzania with their efforts to conserve their network of protected areas
- Engage rural communities in the conservation of their natural heritage and empower them to alleviate some of the conditions that contribute to poverty
- Monitor, research and facilitate initiatives in sustainable utilization of natural resources

ADAM CLEMENTS SAFARI TRACKERS

Besides our TANZANIA operation that we fully own and operate under Adam Clements Safaris Limited we also cater to you our clients and can book you on hunts World Wide through our Adam Clements Safari Trackers company which deals with outfitters in many countries.

We believe in quality service, quality trophies, personalized service and attention and the best chance of success as possible. All of the outfitters that we work are proven quality outfitters and where Adam Clements has personally hunted himself or gone and experienced for himself to ensure that you our clients go to a place that match our standards that we hold

If you wish to hunt anywhere in the World, just contact us and we will send you the details and options for you to consider. If we have not been there ourselves, we will let you know that we do not have anything to offer! We will never send you somewhere that we not 100% certain about! Most booking agents will send you places that they have never been to and have only seen pictures of!

Adam Clements himself has 27 years of experience in this industry of professional hunting and booking hunts. When you invest your time and money, you want to go with experience!
