SAFARIS

# About Us...

**AS ONE OF MAN'S OLDEST TRADITIONS, HUNTING IS NOT ONLY A PASSION BUT A WAY OF LIFE.** For those of us who choose the hunting life, there is a piece of our soul that beckons us to take to the woods, to the bush, to the water, or the mountains and reconnect with the ways of old. We respect the wildlife that we pursue.

At **Adam Clements Safari Trackers**, we understand this need, because we feel the call as well. We strive to give our clients an adventure and memories to last a lifetime, and hunting stories that can be passed around the campfire for future generations. Whether you want that big black-maned lion, 200+ inch Mule Deer, or a trophy big-horn sheep, we have a hunt for everyone. With a devotion to customer service and knowledge of the industry, we will help you plan from beginning to end.

I was born and raised in Tanzania, East Africa to missionary parents who dedicated their lives for 42 years. I grew up on the shores of Lake Victoria right next to the famous Serengeti National Park as my backyard. I grew up hunting as early as I can remember and that passion for wildlife has never faded to this day. I did a lot of animal control hunting for the government for Hippos, Lions, and Leopards at an early age along with a lot of Buffalo hunting.

At the age of 19, I went to the University of Tennessee and got my BS degree. During my University years, I worked for the police department and ended up working as undercover narcotics for the government after that. After several shootings, being shot at, being stabbed, and receiving the Purple Heart from the government, I decided that I would pursue my real passion of hunting. So, in 1994 I started **Adam Clements Safari Trackers** and gradually grew my company one client at a time into the successful company it is today.

I have to date taken with clients 134 Leopards and 90 Lions and known by many of my clients as the cat man! I can only say thanks to my loyal clients and to those of you who have hunted with me in the past and present, for without your trust in me, I would not be where I am today!

I am very blessed to have met and married my beautiful and smart wife Sarah who is a Pharmacist and who also handles my accounting. We have a beautiful daughter Fairyn who is just as smart as her mother and loves the outdoors and being in Africa.

We as a family strive to give you our very best when you book your adventure with us and I can assure you that my experience and knowledge of this industry will save you time and money.

When you embark on a journey to Africa for a Hunting or Photographic Safari, you are going because you want to embrace a new adventure by experiencing things you are unable to view anywhere else.

We strive to ensure a successful Safari full of memorable experiences created by our knowledgeable team of professionals. It is not only the adventure that creates a successful Safari, it is the people you are surrounded with, their culture, the smells of the African wilderness, being awakened at dusk by the chirping of the Birds, the roar of the Lion at night, the tastes of different foods or being so close to a Leopard that you can almost feel its breath on you. These are just a few of the memories that we would create for you, your family, and your friends. It is not just a Hunt or Photographic Safari being offered but an unforgettable adventure and experience.

To all of the clients who booked and hunted with us this year, I'd like to thank you for allowing me and our entire team the opportunity to create a memorable experience. I hope that your Safari was above and beyond your expectations as I strive to offer nothing less than the very best experience for each client. We have had another outstanding year with some of the most beautiful trophies taken. Our brochure speaks for itself with many satisfied clients. We have taken them on a journey, and the images are just a mere reflection of the life-long memories that turned their dreams into reality. I would like to personally thank all of our Professional Hunters and Outfitters that I work with for doing an outstanding job, as always.

To my office staff, a tremendous amount of gratitude for a great year in assisting each and every client. Of course, many thanks to our clients, as we owe our success to them!

When you book a Safari with **Adam Clements Safari Trackers**, you can be assured that you are booking a top-quality Safari. I only deal with the very best Outfitters and areas, personally spending my own time and money visiting each to ensure that my clients will be taken care of. For those of you who have not booked a Hunting, or Photographic Safari with us, I hope that you will give us a call and allow us to turn your dreams into a reality, creating treasured lifelong memories for you, your family, and friends.

# TANZANIA

**Adam Clements Safaris Limited** is our actual operating company in Tanzania. The government concessions that we offer in Tanzania are all managed and operated with our own camps, staff, vehicles, and supplies. We have our own big office located in Arusha to handle all operations and trophy exports.

Tanzania is a land that has lured famous explorers and adventurers for centuries. Tanzania to this day still lures adventurers and sportsmen from around the world. It is one of the last remaining countries in Africa where you can still experience the true East African adventure. Whether it be hunting for the big cats, big buffalo, and special plains game, sightseeing and photography, or climbing Mount Kilimanjaro, Tanzania has everything. If you truly want an adventure and experience that is unmatched, then Tanzania is the country of choice. Apart from hunting or sightseeing, the most important aspect of your Safari should be the unforgettable memories of the unique atmosphere of the African bush along with the people, animals, skills, sights, smells and sounds that you encounter while in Tanzania.

Books have been written and movies filmed, attempting to describe the impassioned grip Africa can have on the soul. From the days when hundreds of porters would carry supplies for months-on-end expeditions, to today, when the most remote places are accessible by light aircraft, there is an adventure and romance associated with a Safari in the African wilderness.

ADAM CLEMENTS  
SAFARIS

For some, such as **Adam Clements Safaris**, that adventure has become a way of life. Whether you seek a luxurious wildlife adventure, a remote and rugged area, a family holiday, or if you are a photographer with a mission, we will help you organize your journey.

We have excellent areas and camps. Whether you're in Northern Tanzania on the Masai plains, or in Western Tanzania, you will have an experience that will bring your dreams to reality and memories to last a lifetime. In Tanzania, the areas we have are all PRIME areas where you can be assured of quality trophies, first-class camps, equipment, and our personal attention.

*Contact us directly by email or telephone to get a price sheet and details for Tanzania.*

# Malagarasi River Fishing

Our Malagarasi River in the Moyowosi Game Reserve is the wildest most remote and best fishery there is for Tiger fishing in my opinion. We have 200 km of river that you will fish during your six-day trip. Set deep in an untouched corner of Western Tanzanian wilderness. This area is home to monster 20-pound-plus Tigers. Nobody else can offer you 200 km of private remote fishing all to yourself where you fish all 200 km! A trip to Tanzania, Africa is without a doubt a journey to the wildest edge of fly fishing, and with our guide one of the most experienced guides in the entire region. The Malagarasi River is hands-down the finest, wildest, and most productive African Tiger fishery that Africa has to offer. If you want to experience a fun wild and remote fishing destination where you can catch big Tiger Fish, get to see beautiful bird life and experience an adventure fly camping in remote Africa, then this is the place. 2x1 or 4x2 = \$7,200 for six (6) days. Ask for a full brochure.

# Anti-poaching & Management

## OUR ANTI-POACHING UNITS SPEND 365 DAYS A YEAR IN OUR CONCESSIONS

**PATROLLING.** We patrol by vehicle, boat, helicopter, tractor, and foot to ensure we cover land, swamp, and rivers.

For each concession, we have one Unit that consists of four Government game Rangers and four company-trained staff.

Our presence and effectiveness since we started in these areas have been tremendous. When we first took over these areas, there was very little to no Elephant sign or sightings. Within only a few months to half a year of our strict conservation and anti-poaching the Elephants started to return, to where now we have daily fresh signs and sightings.

The Hippos had been poached out of the Malagarasi River when we started, and now the Hippos have started to return and we are starting to see new life and more abundance of game in the River where there had not been any protection for many years.

These are just a few success stories, but overall the game is abundant and with our protection, we plan to increase the numbers even more.

Conservation does not just happen with Anti-poaching and community education. Interaction is very important. We work very closely with our fellow Game department and government with our outlying villages that border our concessions to the west, trying to educate them on the value of wildlife and what wildlife and heritage mean to them.

Also, that part of the revenue that we get from the wildlife does go back to them with what we provide to their communities with different projects. Projects such as schools, food, equipment for hospitals, education and so forth.

## Our Mission. . .

- ~ Provide proactive assistance to the Tanzanian Government and the people of Tanzania with their efforts to conserve their network of protected areas.
- ~ Engage rural communities in the conservation of their natural heritage and empower them to alleviate some of the conditions that contribute to poverty.
- ~ Monitor, research and facilitate initiatives in sustainable utilization of natural resources.

# Goals and Accomplishments

**WE HAVE BEEN VERY BLESSED** to have a few very loyal supporters of our mission and goals, which have supported us. Thanks to a handful of loyal clients who have supported us in our dedication and have seen our mission in our areas, we have been able to accomplish so much and grow in our conservation. Last year we purchased a boat to start patrolling our Malagarasi River, where we began a 24/7 Anti-Poaching Unit. Our unit has been a huge success; we have managed to patrol and clean up the entire 200km of river that we control. This river system is now protected. The Hippos are coming back, the crocodiles are sunbathing peacefully, the animals are grazing along the banks without being snared, and the birdlife on the river is out of this world. With additional support, we ordered more boats to protect this vital ecosystem so that this paradise can continue to flourish, allowing us to utilize it further for fishing, hunting, and bringing in revenue to support the anti-poaching.

We were also able to conduct Anti-Poaching with a helicopter this year which is the only method to control poaching within our swamp ecosystem. The helicopter addition was a huge success and the only effective way to patrol our massive swamps. Our swamps are home to the rare Sitatunga, Shoebill Stork, and many other species who use the swamp as protection like Elephant, Hippo, Crocodile, Waterbuck, Bushbuck, etc. If we do not stay dedicated to our cause and mission, these animals will be poached. It is very costly to run air patrol, and we thank all those who have hunted with us and those who have directly allowed us to protect the wildlife and areas that we love dearly.

# Trophy Handling & Shipping

**YOUR SAFARI IS IMPORTANT, AND SO IS SHIPPING YOUR TROPHIES HOME.** So important that **Adam Clements Safaris** oversees the process from start to finish. First, we begin with skinning, salting, and drying the trophies in camp. From there, the trophies are transported to our Arusha office location, which has an onsite climate-controlled storage warehouse. Here, our full-time staff will safely store and protect your trophies. Our team is also personally responsible for dipping, packing and crafting custom crates with the utmost care for each client's trophies. We ensure that every anatomical part of the trophy is appropriately packed and ready for the journey home.

Once the Tanzanian government issues the trophy shipping paperwork, our team transfers the trophies to the shipping agent and airline. After receiving final approval from the client's broker, we allow the trophies to ship home.
